

# FOR IMMEDIATE RELEASE

# HIGH VALLEY

**to perform at the 156<sup>th</sup> Annual Indiana County Fair August 29<sup>th</sup>**

The band of brothers known as High Valley will perform at the Indiana County Fair on August 29<sup>th</sup>. Everyone who buys a ticket to the fair, at \$8 a pop - which includes free parking - will see the hit country duo of Brad and Curtis Remple bring their unique blend of catchy pop and old school bluegrass; something they call “pop-grass”.

High Valley’s devoted following was built from the Remple brothers’ encouragement of fan participation and allowing their audience members to be actively involved in song selection. The brothers are also very interactive with their fans on social media, creating a close-knit but ever-ballooning community.

That connection they’ve forged with fans has led to more than 43 million individual song streams, and placement of their inspirational song, “Young Forever” on the 2017 edition of EA Sports’ smash hit Madden NFL video game franchise.

The Remple brothers grew up in the far northern Canadian town of La Crete, Manitoba – a Mennonite farming community that is so remote FM radio couldn’t even reach them. “...when we turned it on there was nothing on it,” Brad said in an interview with CBS.

The limited exposure to pop-culture allowed them to play music as a family and develop their own musical style, which would lead them to create hits like “Make You Mine” and “She’s With Me” – both of which are featured on their recently released album “Dear Life”

Buy your tickets now for \$8 apiece and be there to catch the country craze that outlets such as Rolling Stone Country, Spotify, Pandora and CMT selected as “ones to watch”. Show up early for best seating and parking.
